Byadgi ELECTRIC LICENCE, 1937

Conditions and Miscellaneous Charges for the Supply of Energy

PART I

CONDITIONS OF SUPPLY

1. *Application for supply.*—(1) An application for the supply of energy shall be made to the licensee in the form of a requisition attached hereto (Annexure A), of which copies are obtainable from the licensee. The requisition shall be signed by the owner or occupier of the premises for which the supply is required. Any assistance or information required in filling up the form will be given to the applicant at the office of the licensee.

(2) If the supply is required for motors the applicant shall state the purpose for which the motors are required, and shall also specify the amount of the current in amperes at full load which may be required for each motor.

(3) A requisition under clause V (4) of the Schedule to the Indian Electricity Act, 1910, requiring the licensee to provide distributing mains throughout a street or part thereof shall be in the form of Annexure C attached hereto.

2. *Service Lines.*—The licensee shall lay free of charge 100 feet of service line from his nearest distributing main outside the limits of the property in respect of which the requisition is made. Any length in excess of 100 feet, as defined above and the whole of the service line within the limits of the property in respect of which the application is made shall be paid for by the applicant.

3. *Notice for fixing the position of service.*—Upon receipt of a requisition, notice shall be sent to the consumer or to the wiring contractor acting on the consumer's behalf for his representative to meet the Licensee's engineer for the purpose of inspecting the premises and fixing the point of entry of the supply mains and the position of the mains, cut-outs and meters.

4. *Quotations, etc., for laying service lines.*—The position for the service having been agreed upon as provided in condition 3 above, the licensee shall thereafter submit to the applicant a quotation of the estimate of the cost of carrying out the work. The quotation having been accepted, the applicant shall be required to deposit the amount of the estimate with the licensee before the service is laid. The deposit having been duly paid, orders shall be issued for the work to be put in hand and the amount so deposited shall be subsequently adjusted, if necessary, on completion of the figures of the actual cost of the service line. Other conditions being equal, service lines shall as far as possible be laid in the order of the dates of receipt of the deposit money.

Note.—The service line, notwithstanding that a portion of the cost has been paid for by the consumer, shall remain the property of the licensee by whom it is to be maintained.

5. *Wiring on consumer's premises.*—For the protection of the consumer and the public generally, it is necessary that the wiring on the consumer's premises should conform to the Indian Electricity Rules, 1937 and the rules of the Fire Insurance Company in terms of which the building is insured and be carried out by a licensed electrical contractor. As soon as the consumer's installation is completed in all respects and tested by the consumer's contractor, the consumer should submit to the licensee the wiring contractor's completion and test report. A form for this purpose shall be supplied by the licensee. It is important that the conditions named therein are fully complied with, as otherwise there will be a delay in obtaining the supply.

As required by rule ~~40-A~~ 48 of the Indian Electricity Rules, 1937, no electrical installation work (including additions, alterations, repairs and adjustments to existing installations), except such replacement of lamps, fans, fuses, switches and other component parts of the installation as in no way alters the capacity and character of the installation, shall be carried out upon the premises on behalf of any consumer or owner for the purposes of supply of energy to such consumer or owner, except by an electrical contractor licensed by Government in this behalf and under the direct supervision of a person holding a certificate of competency issued by Government. Any person committing a breach of rule ~~40-A~~ 48 shall render himself liable to punishment under rule ~~106-A~~ 123 of the said Rules.

6. *Inspection and testing of installation by the licensee.*—(*a*) Upon receipt of the test report the licensee shall notify to the consumer the time and the day when the licensee's representative proposes to inspect and test the installation. It will then be the duty of the consumer to arrange that a representative of the wiring contractor employed by him is present at the inspection to give the licensee or his representative any information required by him concerning the installation.

(*b*) No connection shall be made until the consumer's installation has been inspected and tested by the licensee and found satisfactory. No charge shall be made for the first test by the licensee, but subsequent tests due to faults found at the initial test shall be charged for in accordance with Part II of these conditions.

(*c*) Before taking the insulation test of the installation the wiring must be complete in every respect. All fittings such as lamps, fans, cookers, motors, etc., must be connected up, fuses inserted and all switches switched in the " on " position before the tests are carried out. Temporary wires or fittings or dead ends should not be included in the installation and no part of the work should be left incomplete.

(*d*) The insulation resistance of the entire installation to earth shall be tested from the installation side of the licensee's terminals.

(*e*) The licensee shall not connect the conductors and fittings on the consumer's premises with his works, unless he is reasonably satisfied that the connection will not at the time of making the connection cause a leakage from those conductors and fittings exceeding one five thousandth part of the maximum supply demanded on the consumer's premises.

7. *Extensions and alterations.*—Should the consumer at any time after the supply of energy has been commenced, desire to increase the number or size of lights, fans, motors, etc., on his premises, or in any way to alter the position of his wiring therein, notice thereof shall be sent in writing to the licensee whose representative will call and inspect the alteration and, if necessary, change the meters and fuses and alter the service line. Failure to give such notice may derange the supply system and will render the supply liable to be summarily discontinued.

8. *Failure of supply.*—Should at any time the licensee's service fuse or fuses fail, notice thereof should be sent to the licensee's office or if there are sub-stations, to the nearest sub-station. Only authorised employees bearing the badge of the licensee are permitted to replace these fuses in the licensee's cut-outs. Consumers are not allowed to replace these fuses and they will render themselves liable to a heavy penalty if the licensee's seals placed to protect his apparatus are broken. The licensee does not allow his employees to carry out repairs to the consumer's installation. If the failure of supply is due to any cause other than a fault in the licensee's apparatus, the consumer will be charged a fee of Re. 1 for the attendance of the fuseman in accordance with Part II of these conditions.

9. *Access to premises and apparatus.*—The licensee's servants are entitled at all reasonable times to enter upon the premises to which energy is supplied for the

purpose of reading the meters and for other purposes connected with the apparatus belonging to the licensee.

10. *Accuracy of meters.*—Should the consumer dispute the accuracy of any meter which is not his own property, he may, upon giving notice and paying the prescribed fee, have the meter tested by the licensee or the Electric Inspector, Bombay, in accordance with section 26 of the Indian Electricity Act, 1910. In the event of the meter being tested by the licensee and found to be beyond the limits of accuracy as prescribed, the testing fee shall be returned and the amount of the bill adjusted in accordance with the result of the test taken with respect to the meter readings of the three months prior to the month in which the dispute has arisen, due regard being paid to conditions of occupancy during the month under dispute and during the previous three months. In the event of the test being undertaken by the Electric Inspector, Bombay, and the meter being found to be incorrect, the period during which the meter shall be deemed to have been incorrect, and the amount of energy supplied to the consumer during this period shall be decided by the Electric Inspector, Bombay, whose decision shall be final.

The licensee may remove the meter for the purpose of testing it in his laboratory.

11. *Deposits.*—The consumer may be required by the licensee to enter into a contract in the form of Annexure B hereto appended or make a declaration in lieu of the written contract on one rupee stamp and to make a cash deposit or to give security in Government Promissory Notes or other approved securities for the payment of his monthly bills for energy supplied and for the value of the meter and other apparatus installed on his premises. In the event of no contract having been entered into between the licensee and the consumer, the latter after the supply of energy has once commenced, shall be bound by the terms and conditions of supply herein set forth.

The licensee is prepared to allow interest as follows upon deposits lodged with him against (*a*) regular payment of energy bills (*b*) a reasonable return under clause V and/or VI of the Schedule to the Indian Electricity Act, 1910. In both the above cases deposits must be made in cash if the sum deposited is below Rs. 100 and in cash or Government securities if the sum is Rs. 100 or exceeds that amount. No interest shall be allowed upon deposits below Rs. 50.

On deposits of Rs. 50 or more which may be made in cash, interest shall be allowed at the rate of 2 per centum per annum.

On deposits made in Government securities the interest accruing thereon will be collected periodically and passed on to the depositor less 2 per cent. which will be retained by the licensee to cover the cost of collection, etc. When Government securities are deposited the amount of the deposit shall be calculated at the current market value of the said securities and not upon their face value. No interest shall be allowed on deposits lodged against the cost of service lines, as the account is only of a temporary nature.

12. *Notice of removal.*—Consumers about to vacate or sublet their premises shall give to the licensee a full seven days' notice in writing as to whether the premises should be disconnected or only the meters should be read and the bills submitted ; otherwise, the licensee cannot guarantee that the meter readings will be taken on the required date. Failing such notice, the consumer will be held responsible for all energy consumed on the premises until the expiration of 24 hours from the day on which notice of removal in writing has been received at the office of the licensee.

13. *Payment of bills.*—(1) Bills should be paid at the licensee's office within 8 days from the date of their presentation.

(2) Any complaints with regard to the accuracy of the bills shall be made in writing to the licensee and the amounts of such bills shall be paid *under protest* within the said period of 8 days. The amounts of bills paid under protest will be regarded as advances to the credit of the consumer's account until such time as the bills in dispute have been finally settled.

(3) If the consumer fails to pay any bill presented to him within the said period of 8 days, the licensee shall be at liberty to take action under sub-section (1) of section 24 of the Indian Electricity Act, 1910, and to cut-off the supply after giving such consumer not less than 7 days' clear notice in writing without prejudice to his right to recover the amount of the bill by suit. Where, however, any difference or dispute has been referred under the Act to an Electric Inspector before notice as aforesaid has been given by the licensee, the licensee shall not be at liberty to cut-off the supply for failure to pay the bill except where the licensee has made a request in writing to the consumer that the amount in dispute should be deposited with the Electric Inspector and the consumer has failed to comply with such request.

14. *System of supply.*—Supply of energy shall be given from medium pressure distributing mains on the

~~(a)~~ Three phase four-wire Alternating Current system, 50 cycles, 400 volts between phases or 230 volts between each phase and neutral wires.

~~(b) Three-wire Direct Current system, 460 volts between outers or 230 volts between each outer and neutral wire.~~

15. *Classification of Installations :—*

~~I.~~ A. C. SYSTEM.

(*a*) 2 wire single phase, 230 volts— 5

1. General supply not exceeding ~~10~~ amperes.
2. Motive power installations below 1 B.H.P. in the aggregate.

(*b*) 3 wire, two phase, 230 volts between phase wires and neutral—

General supply exceeding 10 amperes but not exceeding 20 amperes.

(*c*) 4 wire, three phase, 230 volts between phase wires and neutral—

General supply exceeding 20 amperes.

(*d*) 3 wire, 3 phase, 400 volts between phases—

Motive power installations of 1 B.H.P. in the aggregate and over.

~~II. D. C. SYSTEM.~~

(*a*) 2 wire, 230 volts—

1. General supply not exceeding 10 amperes.
2. Motive power installations up to 1 B.H.P. in the aggregate.

(*b*) 3 wire, 230 volts between outer wire and neutral—

General supply exceeding 10 amperes.

(*c*) 2 wire, 460 volts between outers—

Motive power installations of over 1 B.H.P. in the aggregate.

16. *General Wiring Conditions*—(*a*) *Mains.*—The consumer's mains shall in all cases be brought back to the licensee's point of supply and sufficient cable shall be provided for connecting up with the licensee's apparatus.

(*b*) *Switches and Fuses.*—The consumer shall provide linked quick break main switches and a single pole fuse on each pole, which shall be fixed as near as possible to the licensee's meter board.

(*c*) *Balance of Installation.*—If the connected load of any installation exceeds 10 amperes at 230 volts, the installation shall be wired on the group system, separate neutral wires being brought back in each case to the licensee's point of supply. An approved form of linked switch (single pole) with two single pole fuses shall control each main circuit. The lamps, fans or any other apparatus of which the installation consists shall be so grouped that under normal working conditions the current will be balanced and no current will be flowing in the neutral wire.

(*d*) *Medium Pressure Supply.*—With medium pressure supply, i.e., 250 volts to 650 volts, the licensee's meter and service cut-outs shall be enclosed in a strong teakwood box suitably ventilated and provided with a hasp, staple and lock. All wires between which a difference of potential of 250 volts or over exists shall be made inaccessible to unauthorised persons or enclosed in an earthed metallic casing or conduit. A " Caution " Board printed in English and in the Vernacular shall be fixed thereto.

(*e*) *Aerial Mains.*—In order to save the expense of a long underground service on private property, a consumer may, with the licensee's approval, erect a pillar on that portion of his property which is nearest to the licensee's supply mains into which the service shall be laid and from which the consumer shall run overhead mains to his premises. These overhead mains shall constitute a portion of his installation and shall be laid in compliance with the Indian Electricity Rules, 1927. An efficient choking coil and lightning arrester may be fixed at the commencement of the overhead line at the consumer's cost should he desire the same, as an additional protection for his installation.

(*f*) *Earthing.*—Gas pipes shall on no account be used for earthing purposes. All wiring shall be kept as far as possible from gas and water pipes.

(*g*) *Domestic Heating and Cooking.*—A special circuit for heating and cooking shall be run from the licensee's point of supply. Wall plugs used on these circuits shall be of the three pin type, the third pin being an earth connection. Two pin plugs or lightning sockets shall not be allowed.

(*h*) *Plugs.*—All plugs shall be switched on the live wire and not on the neutral.

(*i*) *Wiring.*—Single leads shall not be allowed to be run separately in iron conduit.

(*j*) (1) *A. C. Motor Installation.*—Motors shall be provided with control gear so as to prevent satisfactorily the maximum current demand from the consumer's installation exceeding the limits given in the following schedule at any time under all possible conditions. Failure to comply with these regulations will render the consumer liable to disconnection from the supply on account of interference with the supply to other consumers :—

Nature of supply.	Size of installation.	Limit of maximum current demanded.
Single Phase ..	Up to and including 1 B.H.P.	Six times full load current.
Three Phase ..	Above 1 B.H.P. and up to and including 10 B.H.P.	Three times full load current.
	Above 10 B.H.P. and up to and including 15 B.H.P.	Twice full load current.
	Above 15 B.H.P. ..	One and a half time full load current.

Motor circuits shall be controlled by a triple pole switch protected by a no-volt release and T. P. fuses (or overload releases). It is important that the release should be maintained in thorough working order. Wiring for motors shall be run with all three phase wires bunched in a single metallic conduit, which shall be efficiently earthed throughout and connected to the frame of the motor from which two separate earth wires shall be run. The minimum size of the earth wire permitted is No. 10 or 2/14 S.W.G. All motors shall comply in every respect with the Indian Electricity Rules, 1937.

Motors of 1 B.H.P. and above shall be wound for 3 phase, 400 volts between phases.

(2) *D. C. Motor Installations.*—Motors shall be provided with control gear so as to prevent satisfactorily an excessive current demand from the consumer's installation. Failure to comply with these regulations will render the consumer liable to disconnection from the supply on account of interference with the supply to other consumers.

Motor circuits shall be controlled by a double pole switch protected by a no-volts release and D. P. fuses (or overload releases). It is important that the release be maintained in thorough working order. Wiring for motors shall be run with both the wires bunched in a single metallic conduit, which must be efficiently earthed throughout and connected to the frame of the motor from which two separate earth wires shall be run. The minimum size of the earth wire permitted is No. 10 or 2/14 S.W.G. All motors shall comply in every respect with the Indian Electricity Rules, 1922.

Motors above 1 B.H.P. shall be wound for 460 volts.

(*k*) *Power Factor of Apparatus.*—The apparatus shall have a power factor of not less than 80 per cent. at normal working loads.

17. *Saving of Rights of Licensee and Consumers.*—Nothing in these conditions shall abridge or prejudice the rights or remedies of the licensee and the consumer under the license, the Indian Electricity Act, 1910, or the Indian Electricity Rules, 1937.

7-2-1938 A. A. Inamdar

ANNEXURE " A"

FORM OF REQUISITION FOR SUPPLY OF ENERGY UNDER CLAUSE VI (5) OF THE SCHEDULE TO THE INDIAN ELECTRICITY ACT, 1910.

Note.—Intending consumers are requested to see that this form is fully and clearly filled in and signed.

To

(name of licensee)

I/We hereby require you, in accordance with clause VI of the Schedule to the Indian Electricity Act, 1910, within one month or within such longer period as the Electric Inspector may allow, from the date of this requisition, to supply energy for the premises owned/occupied by me/us, and situate within the area of supply specified in the Licence, 19 , for the following :—

Incandescent Lamps.		Punkhas.		Plugs, Heaters, etc.		Motors.		Total Demand.
No.	Wattage each.	No.	Wattage each.	No.	Wattage each.	No.	B.H.P. each	K.W.

Applicant's Name

Designation

Class of Premises House No.

Road Locality

This requisition is for—

(1) A New Service.

The landlord has agreed to my taking the supply of energy and his written authority is enclosed herewith.

(2) A Tapping.

The name and address of the consumer for whom the service was originally laid

His Service No. is

The landlord has agreed to my taking the supply of energy and his written authority is enclosed herewith.

(3) An extension to my existing installation from Service No.

(4) A re-connection.

The previous consumer's name is

and his Service No. is

(5) A change of name from Service No.

The wiring will be carried out by :—

Note—

1. The applicant is requested to complete the clause referring to this requisition and to strike out the clauses which are inapplicable.

2. Under clause VI (I) 1st proviso of the Schedule to the Indian Electricity Act, 1910, the licensee shall not be bound to comply with any such requisition unless and until the person making it—

(*a*) within fourteen days after the service on him by the licensee of a notice in writing in this behalf, tenders to the licensee a written contract in the form approved by the Local Government duly executed and with sufficient security binding himself to take the supply of energy for not less than two years to such amount as will produce at current rates charged by the licensee, a reasonable return to the licensee ; and

(*b*) if required by the licensee so to do, pays to the licensee the cost of so much of any service line as may be laid down or placed for the purposes of the supply upon the property in respect of which the requisition is made, and of so much of any service line as it may be necessary for the said purposes to lay down or place beyond one hundred feet from the licensee's distributing mains, although not on that property.

3. No connection will be given to any consumer whose installation has not been carried out by a licensed electrical contractor and under the direct supervision of a Competency Certificate holder [*vide* Government Notification (Public Works Department) No. 640/27-I, dated 15th November 1934].

4. In lieu of the contract referred to in Note 2 (*a*) above, the licensee is prepared to accept a declaration in the following form, subject to deposit of any required securities by the applicant :—

Declaration.

I/We hereby declare that I/We desire to have and agree with the licensee to take a supply of energy for the abovementioned purposes for a period of not less than two years from the date of commencement of the supply and to be bound by the provisions of clause VI of the Schedule to the Indian Electricity Act, 1910, and by the licensee's charges, rates and conditions of supply as from time to time in force.

One rupee stamp.

Applicant's signature.

7-2-1938 A. A. Khan

ANNEXURE " B "

AN AGREEMENT made this day of One thousand nine hundred and thirty between (hereinafter referred to as the " Licensee ", which expression shall, unless excluded by or repugnant to the context, be deemed to include his successors and permitted assigns) of the one part and (hereinafter referred to as " the consumer ", which expression shall unless excluded by or repugnant to the context include his heirs, executors, administrators and assigns) of the other part.

WHEREAS the licensee has agreed to supply and the consumer has agreed to take energy at the premises mentioned in the schedule hereto (hereinafter referred to as " the said premises "), subject to the terms and conditions hereinafter contained.

Now it is hereby agreed by and between the parties hereto as follows :—

1. The licensee shall from the day of 19 and during the continuance of this agreement, supply the consumer with the energy required by him for the purpose and up to the maximum quantity specified in the schedule hereto.

2. The consumer shall pay to the Licensee on demand the cost of so much of any electric supply line as may be laid for the purpose of the supply upon the said premises, and of so much of any electric supply line as it may be necessary to lay for the said purposes in excess of 100 feet from the Licensee's distributing main, although not on the said premises.

3. The supply shall be registered by a meter or meters in or upon the said premises which the licensee shall provide and keep in order and replace whenever necessary on payment of a monthly rental of annas eight or rupee one per meter according to the nature of the meter. The consumer shall be at liberty at any time to purchase another meter or meters and from and after the purchase thereof the consumer shall be responsible for keeping the same in proper order.

4. The consumer shall pay to the licensee for the energy so supplied and registered as aforesaid at the rates from time to time in force and paid by similar consumers ; Provided nevertheless that if at the end of twelve calendar months calculated from the first day of the month following that in which the supply was first commenced and at the end of each subsequent period of twelve calendar months during which this Agreement is in force, the registered consumption of energy shall fall short of the value of Rs. being the equivalent of such guaranteed minimum consumption as is specified in the Schedule hereto, the consumer shall pay to the Licensee the difference between the registered consumption and the guaranteed minimum consumption at the rate per Board of Trade unit applicable thereto ; Provided further that in the event of a minimum consumption not being guaranteed the consumer shall pay to the Licensee for each calendar month during which this Agreement is in force a sum which shall not be less than the Licensee's prescribed minimum monthly charge.

5. Readings of the meter or meters shall be taken by the Licensee once in each month or at such other intervals or times as the Licensee shall deem expedient and the Licensee's meter readers shall have access to the consumer's premises at all reasonable times for the purpose of taking such readings. Payment for energy supplied shall be made by the consumer according to the readings of each meter forthwith upon presentation of a bill therefor.

6. Should the consumer dispute the accuracy of any meter not being his own property, the consumer may upon giving notice and paying the prescribed fee, have the meter officially tested by the licensee or the Electric Inspector, Bombay, in

accordance with section 26 of the Indian Electricity Act, 1910. In the event of the meter being tested by the licensee and found to be beyond the limits of accuracy as prescribed, the testing fee will be returned and the amount adjusted in accordance with the result of the test taken in respect of the meter readings of the three months prior to the month in which the dispute has arisen due regard being paid to conditions of occupancy during the month under dispute and during the previous three months. In the event of the test being undertaken by the Electric Inspector, Bombay, and the meter being found to be incorrect, the period during which the meter shall be deemed to have been incorrect, and the amount of energy supplied to the consumer during this period shall be decided by the Electric Inspector, Bombay.

7. The consumer shall, on receipt of a requisition from the Licensee in this behalf deposit with him the sum of Rs. as security for the purpose next hereinafter mentioned, and shall on a like requisition from time to time renew or replenish such security in the event of the same becoming exhausted or insufficient. The Licensee shall be at liberty at any time and from time to time to appropriate and apply any security so deposited as aforesaid in or towards the payment or satisfaction of all or any moneys which shall become due or owing by the consumer to the Licensee in respect of the supply of energy or otherwise under this Agreement but the provisions in this clause contained shall not prejudice any other remedy to which the licensee may be entitled for the recovery of any such moneys. Interest on such deposits shall be paid to the consumer in accordance with the terms laid down in the Licensee's conditions for the supply of energy.

8. This agreement shall be in force for a period of not less than two years in the first instance from the date of commencement of the supply specified in clause 1 and thereafter shall continue from year to year until the agreement is determined as hereinafter provided.

9. The consumer shall not be at liberty save with the consent of the Licensee to determine this Agreement before the expiration of two years from the date of commencement of the supply of energy hereunder. The consumer may determine this Agreement at any time after the said period on giving to the Licensee not less than one calendar month's previous notice in writing in that behalf and upon the expiration of the period of such notice this Agreement shall cease and determine without prejudice to any right which may then have accrued to the Licensee hereunder ; Provided always that the consumer may at any time with the previous consent of the Licensee transfer this Agreement to any other person and upon subscription of such transfer this Agreement shall be binding on the transferee and the Licensee and take effect in all respects as if the transferee had originally been a party hereto in place of the consumer who shall thenceforth be discharged from all liability under or in respect hereof.

10. This Agreement shall be read and construed as subject in all respects to the provisions of the Electric license, 19 , and to the provisions of the Indian Electricity Act, 1910, and the rules for the time being in force thereunder as far as the same may respectively be applicable.

The supply of energy under this Agreement is also subject to the following among other provisions of law, namely :—

(i) If the consumer fails within seven days after the date of the service thereof upon him to comply with the terms of any notice in writing by the Licensee requiring him to give security for the purposes mentioned in clause hereof or to renew or replenish any security which may have been given for these purposes but which may have become exhausted or insufficient, the licensee may discontinue the supply so long such failure continues.

(ii) If the consumer adopts any form of lamp or burner or uses the energy supplied or deals with it in any manner so as unduly or improperly to interfere with the efficient supply of energy to any other person by the Licensee, or fails to keep in proper order any meter belonging to him by which the supply is registered, the Licensee may discontinue the supply so long as such lamp or burner is so adapted or the energy is so used or dealt with or the meter is not kept in proper order, as the case may be.

(iii) The Licensee shall not be bound to give or continue the supply if an Electric Inspector or other competent person appointed by the Local Government is satisfied that the electric lines, fittings, works or any other apparatus within the said premises are not in good order and condition and are likely to affect injuriously the use of energy by the Licensee or by other persons. Nor will the Licensee be responsible for any interruption or dimunition in the supply of energy due to occurrences beyond his control.

(iv) If the consumer makes any alterations or additions to any electric wires, fittings, works or apparatus belonging to him within the said premises, all such alterations and additions shall be notified to the Licensee by the consumer before being connected to the source of supply with a view to their being examined and tested.

THE SCHEDULE REFERRED TO ABOVE

1. Description of the premises.
2. Purposes for which supply is to be given.
3. Maximum quantity of energy required by the consumer.
4. Value of guaranteed consumption for each period of twelve calendar months, commencing from the day of 193 .

IN WITNESS whereof for and on behalf of the Licensee has/have set his/their hand/hands and the seal of the Licensee and the Consumer has set his hand hereunto the day and year first above written.

SIGNED, sealed and delivered by

for and on behalf of the Licensee.

SIGNED and delivered by

the Consumer.

7-2-1938 A. A. Kramer

ANNEXURE " C ".

Form of Requisition under clause V (4) *of the Schedule to the Indian Electricity Act*, 1910.

(In the case of six or more owners or occupiers).

To

(Name of licensee).

We, the undersigned, being owners or occupiers of the premises situated in or upon Street in the town of within the " Area of Supply " specified in the do hereby require you in pursuance of Clause V of the Schedule to the Indian Electricity Act, 1910, to provide within six months from the date of this requisition, distributing mains through the said streets.

Dated at

the day of 193 .

7-2-1938 A. Ahamed.

PART II.

SERVICE AND MISCELLANEOUS CHARGES.

Charges for service line.—One hundred feet of service line from the distributing main, but not on the property for which a requisition for the supply of energy is received, shall be laid free of charge. The charges for the rest of the service line shall be recovered at the actual cost *plus* fifteen per centum to cover overhead charges.

MISCELLANEOUS CHARGES.

	Rs.	a.	p.	
1. Connection fee—				
(*a*) Connection fee for every new installation to the supply mains, including the fixing of meters	6	0	0	
(*b*) If two or more new connections are simultaneously made from the same service, the fee for each additional connection after the first shall be	3	0	0	
2. Reconnection fee for an installation which is disconnected on account of—				
Vacation of premises or non-payment of accounts or infringement of the conditions of supply	2	0	0	

Note.—If, owing to the staff of the Licensee being unable to obtain access to the meter, the disconnection has to be made from the mains, either underground or overhead, the consumer shall have to pay all the costs incidental to such disconnection and reconnection.

	Rs.	a.	p.	
3. *Meters*—				
(*a*) ~~Hire of a D.C. meter or~~ single phase A.C. meter, per mensem	0	8	0	per meter.
~~Hire of a D.C. meter for a 3 wire service or~~ polyphase A.C. meter per mensem ..	1	0	0	
(*b*) Changing meter for one of a different size when necessitated by a change in the consumer's demand	2	0	0	
(*c*) Changing the position of the meter board only and when no alteration in service is required, the necessary alteration in wiring being carried out by ~~the consumer through~~ a licensed electrical contractor ..	3	0	0	
(*d*) Charge for attendance of a fuseman ..	1	0	0	
(*e*) Charge for the supply and fixing of an additional meter board	3	0	0	
(*f*) Charges for attendance of fusemen at consumer's premises during any function per night	3	0	0	
4. *Testing*—				
(*a*) *Installations.*—The test and inspection prior to connection of a new installation shall be carried out free of charge, but should any further test and/or inspection be found necessary owing to any fault in the installation or to non-compliance with the conditions of supply the charge for each additional test shall be	5	0	0	

Rs. a. p.

(*b*) *Testing of meters.*—In the case of a disputed meter no charge shall be made for testing it, should the meter prove to be ~~more than three per centum fast or slow~~, otherwise the charge for testing it shall be .. 3 0 0 per meter.

(*c*) The Licensee shall undertake to test and calibrate meters, which are the property of the consumer on payment of a charge of 3 0 0 per meter.

Note.—The Licensee shall not accept any responsibility whatsoever for the satisfactory and correct running of the consumer's meter after the owner has taken delivery thereof subsequent to the test.

5. *Failure of supply.*—For restoring connection in cases in which the failure of supply is due to any cause other than a fault in the Licensee's apparatus .. 1 0 0

6. *Security deposits against payment of monthly bills.*—When required by the Licensee to do so, the consumer shall deposit security as under—

(1) for lights and fans per 0·5 K.W. applied for .. 5 0 0

(2) for motive power per B.H.P. installed 10 0 0

7. *Supply of energy for a temporary period, not covered by clause VI of the Schedule to the Indian Electricity Act, 1910—*

		Maximum rates
1. *For Lights, Fans, etc.*—		
(*a*) *Metered supply*	..	As. 8 per unit with a minimum of Rs. 3 per month or part of a month.
(*b*) *Unmetered supply*	..	Rs. 4-8-0 per K.W. or part thereof of maximum demand per night of..12 hours.
		Rs. 2-4-0 per K.W. or part thereof of maximum demand per night of ..6 hours.
2. *For Power*—		
(*a*) *Metered supply*	..	As. 4 per unit with a minimum of Rs. 3 per K.W. of demand per month or part of a month.
(*b*) *Unmetered supply*	..	Rs. 2-4-0 per K.W. or part thereof per day (restricted to 12 hours day supply only).
		Rs. 4-8-0 per K.W. or part thereof per day for 12 hours night supply.

3. *Service.*—The actual cost of the service (labour and materials *plus* 15 per cent. for supervision) shall be recovered from the consumer. When the service is removed, the labour cost of dismantling shall be charged to the consumer, who will be allowed a credit for all materials returned at the actual cost less 25 per cent. depreciation for the first month or part thereof, and 3¼ per cent. for each subsequent month.

Note.—The Licensee is by no means bound to charge the maximum.

Conditions of supply and misc.
charges in con.with -

Dear Sir,

I am directed to state that the conditions and the misc.charges,Parts I and II, for the supply of electrical energy at Byadgi submitted by you through the El.Engr.to Govt. are at present under consideration and the orders of Govt.in the matter will be communicated to you in due course. In the meantime, Govt.have no objection to your commencing supply provisionally in accordance with the conditions and the misc.charges proposed. The permission hereby granted is subject to the express understanding that in the event of any of the terms and conditions proposed by you being modified by Govt., you will give effect to such modifications immediately the orders of Govt. reach you.

Yours faithfully,

Copy of letter No.178 of 3rd September 1938, from the President, Byadgi Municipality.

With reference to your No.P.O.L.682 of 29-7-38, I have the honour to return herewith a copy of the draft conditions of supply and miscellaneous charges in respect of the -- Byadgi Electric License 1937 and to state that there seems no objection to approve the rates as detailed in the accompanying draft conditions, since they appear to be maximum rates, which can be reduced by the Licensee on mutual agreement. The conditions also seems to be reasonable.

Copy of resolution No.26 passed by the Byadgi Municipality in its adjourned General meeting held on 10-11-1938.

Subject.	Resolution.
26. To consider the condition of supply of & Miscellaneous charges submitted by the Byadgi Electric Company and to send opinion thereon.	Proposed by Mr.Sogi. Seconded by Mr.Pawar. The conditions and the rates mentioned therein were read and considered and that the opinion sent by the President in his letter No.178 of 3-9-1938 should be approved. Carried Nem. Con. Sd. GOVERNMENT OF BOMBAY.

PUBLIC WORKS DEPARTMENT.

Resolution No. 2649/36.

Bombay Castle, 6th January 1939.

D1 (R.G. Higham Esq.) Letter from the Electrical Engineer to Government, No. L. 63/1293, dated the 12th July 1938, as under:—

"I have the honour to forward herewith conditions of supply and miscellaneous charges, Parts I and II, in respect of the supply of energy at Byadgi, submitted by the licensee, Mr. S. A. Manvi. The same are in order and may be sanctioned by Government after consulting the local authority."

Read Government endorsement No. 2649/36-M, dated the 18th July 1938, to the Commissioner, Southern Division.

D2 — Letter from the Electrical Engineer to Government, No. L. 63/2388, dated the 17th October 1938, as under:—

"In continuation of this office letter No. L. 63/1293, dated 12th July 1938, I have the honour to state that the licensee proposes to commence supply of energy at Byadgi with effect from the 21st instant. I, therefore, request that Government may be pleased to accord provisional sanction to commence supply on the conditions submitted with this office letter quoted above."

Government Letter No. 2649/36-M, dated the 21st October 1938, to Mr. S. A. Manvi, as under:—

"I am directed to state that the conditions and the miscellaneous charges, Parts I and II, for the supply of electrical energy at Byadgi submitted by you through the Electrical Engineer to Government are at present under consideration and the orders of Government in the matter will be communicated to you in due course. In the meantime, Government have no objection to your commencing supply provisionally in accordance with the conditions and the miscellaneous charges proposed. The permission hereby granted is subject to the express understanding that in the event of any of the terms and conditions proposed by you being modified by Government, you will give effect to such modifications immediately the orders of Government reach you."

D3 (D.S. Modak Esq.) Letter from the District Magistrate, Dharwar, to the Commissioner, Southern Division, No. P.O.L. 682, dated the 22nd/26th November 1938, as under:—

"With reference to your No. M.S.C. 422-B, dated 26th July 1938, on the above subject, I have the honour to state that the President, Byadgi Municipality, who was consulted in the matter, reports that there is no objection to approve the rates, etc., as detailed in the draft conditions of supply and miscellaneous charges in respect of the Byadgi Electric License, 1937. A copy of the Resolution† passed by the Municipality in this connection, together with a copy of the President's letter† under reference, are attached herewith for favour of perusal. I would, therefore, request that the draft conditions may be approved.

"2. The accompaniments received with your letter are returned herewith."

D4 (G.A. Madan Esq.) Memorandum from the Commissioner, Southern Division, No. M.S.C. 422-B, dated the 1st December 1938, as under:—

"Submitted to Government in the Public Works Department with reference to Government memorandum No. 2649/36-M, dated the 18th July 1938. In the circumstances reported by the Collector, the Commissioner does not see any objection to the proposed conditions, etc., being accepted.

"2. Government memorandum No. 2649/36-M, dated the 18th July 1938, is returned herewith as desired."

RESOLUTION.—The following letter may be addressed to Mr. S. A. Manvi, the licensee, the Byadgi Electric License:—

"With reference to Government Letter No. 2649/36-M, dated the 21st October 1938, I am directed to state that Government are pleased

BYADGI ELECTRIC LICENSE

— 1937. —

Conditions and Miscellaneous charges for the supply of Eletrical Energy for the information and guidance of consumer's and Electrical Contractors.

BASIKRANJINI P. PRESS, GADAG.

The Government of Bombay (P. W. D.) Letter No. 2649/36-M. dated 27th January 1939, have approved the conditions and Miscellaneous charges for the supply of Electrical Energy.

IMPORTANT NOTICE.

In accordance with the rules sanctioned by the GOVERNMENT of BOMBAY, all installation work shall be carried out by a licensed Electrical Contractor and under the direct supervision of a class I competency certificate holder. No connection will be given to any consumer whose installation has not been so carried out.

BYADGI ELECTRIC LICENCE, 1937

Conditions and Miscellaneous Charges for the Supply of Energy

PART I

CONDITIONS OF SUPPLY

1. *Application for supply*.—(1) An application for the supply of energy shall be made to the licensee in the form of a requisition attached hereto (Annexure A), of which copies are obtainable from the licensee. The requisition shall be signed by the owner or occupier of the premises for which the supply is required. Any assistance or information required in filling up the form will be given to the applicant at the office of the licensee.

(2) If the supply is required for motors the applicant shall state the purpose for which the motors are required, and shall also specify the amount of the current in amperes at full load which may be required for each motor.

(3) A requisition under clause V (4) of the Schedule to the Indian Electricity Act, 1910,

requiring the licensee to provide distributing mains throughout a street or part thereof shall be in the form of Annexure C attached hereto.

2. *Service Lines*—The licensee shall lay, free of charge 100 feet of service line from his nearest distributing main outside the limits of the property in respect of which the requisition is made. Any length in excess of 100 feet, as defined above and the whole of the service line within the limits of the property in respect of which the application is made shall be paid for by the applicant.

3. *Notice for fixing the position of service* — Upon receipt of a requisition, notice shall be sent to the consumer or to the wiring contractor acting on the consumer's behalf for his representative to meet the Licensee's engineer for the purpose of inspecting the premises and fixing the point of entry of the supply mains and the position of the mains, cut-outs and meters.

4. *Quotations, etc., for laying service lines* - The position for the service having been agreed upon as provided in condition 3 above, the licensee shall thereafter submit to the applicant a quotation of the estimate of the cost of carrying out the work. The quotation having been acce-

pted, the applicant shall be required to deposit the amount of the estimate with the licensee before the service is laid. The deposit having been duly paid, orders shall be issued for the work to be put in hand and the amount so deposited shall be subsequently adjusted, if necessary, on completion of the figures of the actual cost of the service line. Other conditions being equal, service lines shall as far as possible be laid in the order of the dates of receipt of the deposit money.

Note — The service line, notwithstanding that a portion of the cost has been paid for by the consumer, shall remain the property of the licensee by whom it is to be maintained.

5. *Wiring on consumer's premises* — For the protection of the consumer and the public generally, it is necessary that the wiring on the consumer's premises should conform to the Indian Electricity Rules, 1937, and the rules of the Fire Insurance Company in terms of which the building is insured and be carried out by a licensed electrical contractor. As soon as the consumer's installation is completed in all respects and tested by the consumer's contractor, the

consumer should submit to the licensee the wiring contractor's completion and test report. A form for this purpose shall be supplied by the licensee. It is important that the conditions named therein are fully complied with, as otherwise there will be a delay in obtaining the supply.

As required by rule 48 of the Indian Electricity Rules, 1937, no electrical installation work (including additions, alterations, repairs and adjustments to existing installations), except such replacement of lamps, fans, fuses, switches and other component parts of the installation as in no way alters the capacity and character of the installation, shall be carried out upon the premises on behalf of any consumer or owner for the purposes of supply of energy to such consumer or owner, except by an electrical contractor licensed by Government in this behalf and under the direct supervision of a person holding a certificate of competency issued by Government. Any person committing a breach of rule 48 shall render himself liable to punishment under rule 123 of the said Rules.

6. *Inspection and testing of installation by the licensee.*-(*a*) Upon receipt of the test report the licensee shall notify to the consumer the time and the day when the licensee's representative pro

poses to inspect and test the installation. It will then be the duty of the consumer to arrange that a representative of the wiring contractor employed by him is present at the inspection to give the licensee or his representative any information required by him concerning the installation.

(*b*) No connection shall be made until the consumer's installation has been inspected and tested by the licensee and found satisfactory. No charge shall be made for the first test by the licensee, but subsequent tests due to faults found at the initial test shall be charged for in accordance with Part II of these conditions.

(*c*) Before taking the insulation test of the installation the wiring must be complete in every respect. All fittings such as lamps, fans, cookers, motors, etc., must be connected up, fuses inserted and all switches switched in the "on" position before the tests are carried out. Temporary wires or fittings or dead ends should not be included in the installation and no part of the work should be left incomplete.

(*d*) The insulation resistance of the entire installation to earth shall be tested from the installation side of the licensee's terminals.

(e) The licensee shall not connect the conductors and fittings on the consumer's premises with his works, unless he is reasonably satisfied that the connection will not at the time of making the connection cause a leakage from those conductors and fittings exceeding one five thousandth part of the maximum supply demanded on the consumer's premises.

7. *Extensions and alterations.*—Should the consumer at any time after the supply of energy has been commenced, desire to increase the number or size of lights, fans, motors, etc , on his premises, or in any way to alter the position of his wiring therein, notice thereof shall be sent in writing to the licensee whose representative will call and inspect the alteration and, if necessary, change the meters and fuses and alter the service line. Failure to give such notice may derange the supply system and will render the supply liable to be summarily discontinued.

8. *Failure of supply* —Should at any time the licensee's service fuse or fuses fail, notice thereof should be sent to the licensee's office or if there are sub-stations, to the nearest sub-

station. Only authorised employees bearing the badge of the licensee are permitted to replace these fuses in the licensee's cut-out. Consumers are not allowed to replace these fuses and they will render themselves liable to a heavy penalty if the licensee's seals placed to protect his apparatus are broken. The licensee does not allow his employees to carry out repairs to the consumer's installation. If the failure of supply is due to any cause other than a fault in the licensee's apparatus, the consumer will be charged a fee of Re. 1 for the attendance of the fuseman in accordance with Part II of these conditions.

9 *Access to premises and apparatus.*—The licensee's servants are entitled at all reasonable times to enter upon the premises to which energy is supplied for the purpose of reading the meters and for other purpose connected with the apparatus belonging to the licensee.

10. *Accuracy of meters.*— Should the consumer dispute the accuracy of any meter which is not his own property, he may, upon giving notice and paying the prescribed fee, have the meter tested by the licensee or the Electric Inspector, Bombay, in accordance with section

26 of the Indian Electricity Act, 1910. In the event of the meter being tested by the licensee and found to be beyond the limits of accuracy as prescribed, the testing fee shall be returned and amount of the bill adjusted in accordance with the result of the test taken with respect to the meter readings of the three months prior to the month in which the dispute has arisen, due regard being paid to conditions of occupancy during the month under dispute and during the previous three months. In the event of the test being undertaken by the Electric Inspector, Bombay, and the meter being found to be incorrect, the period during which the meter shall be deemed to have been incorrect, and the amount of energy supplied to the consumer during this period shall be decided by the Electric Inspector, Bombay, whose decision shall be final.

The licensee may remove the meter for the purpose of testing it in his laboratory.

11. *Deposits.*—The consumer may be required by the licensee to enter into a contract in the form of Annexure B hereto appended or make a declaration in lieu of the written contr-

act on one rupee stamp and to make a cash deposit or to give security in Government Promissory Notes or other approved securities for the payment of his monthly bills for energy supplied and for the value of the meter and other apparatus installed on his premises. In the event of no contract having been entered into between the licensee and the consumer, the latter after the supply of energy has once commenced, shall be bound by the terms and conditions of supply herein set forth.

The licensee is prepared to allow interest as follows upon deposits lodged with him against (*a*) regular payment of energy bills (*b*) a reasonable return under clause V and/or VI of the Schedule to the Indian Electricity Act, 1910. In both the above cases deposits must be made in cash if the sum deposited is below Rs. 100 and in cash or Government securities if the sum is Rs. 100 or exceeds that amount. No interest shall be allowed upon deposits below Rs. 50.

On deposits of Rs. 50 or more which may be made in cash, interest shall be allowed at the rate of 2 per centum per annum.

On deposits made in Govrnment securities the interest accuring thereon will be collected periodically and passed on to the depositor less 2 per cent. which will be retained by tne licensee to cover the cost of collection, etc. When Government securities are deposited the amount of the deposit shall be calculated at the current market value of the said securities and not upon their face value. No interest shall be allowed on deposits lodged against the cost of service lines, as the account is only of a temporary nature.

12. *Notice of removal.*—Consumers about to vacate or sublet their premises shall give to the licensee a full seven days' notice in writing as to whether the premises should be disconnected or only the meters should be read and the bills submitted ; otherwise, the licensee cannot guarantee that the meter readings will be taken on the required date. Failing such notice, the consumer will be held responsible for all energy consumed on the premises untill the expiration of 24 hours from the day on which notice of removal in writing has been received at the office of the licensee.

13. *Payment of bills.*—(1)Bills should be paid at the licensee's office within 8 days from the date of their presentation.

(2) Any complaints with regard to the accuracy of the bills shall be made in writing to the licensee and the amounts of such bills shall be paid *under protest* within the said period of 8 da ys The amounts of bills paid under protest will be regarded as advances to the credit of the consumer's account until such time as the bills in dispute have been finally settled.

(3) If the consumer fails to pay any bill presented to him within the said period of 8 days the licensee shall be at liberty to take action under sub-section (1) of section 24 of the Indian Electricity Act, 1910, and to cut-off the supply after giving such consumer not less than 7 days clear notice in wirting without prejudice to his right to recover the amount of the bill by suit. Where, however any difference or dispute has been referred under the Act to an Electric Inspector before notice as aforesaid has been given by the licensee, the licensee shall not be at liberty to cut-off the supply for failure to pay the bill except where the licensee has made a

request in writing to the consumer that the amount in dispute should be deposited with the Electric Inspector and the consumer has failed to comply with such request.

14. *System of supply.*—Supply of energy shall be given from medium pressure distributing mains on the—

(a) Three phase four-wire Alternating Current sytem, 50 cycles, 400 volts between phases or 230 volts between each phase and neutral wires.

15. *Classification of Installations:*—

A. C. SYSTEM.

(*a*) 2 wire single phase, 230 volts—

1. General supply not exceeding 5 amperes.

2. Motive power installations below 1 B.H.P. in the aggregate.

(*b*) 3 wire, two phase, 230 volts between phase wires and neutral.—

General supply exeeding 10 amperes but not exceeding 20 amperes

(*c*) 4 wire, three phase, 230 volts between phase wires and neutral– General supply exceeding 20 amperes.

(*d*) 3 wire, 3 phase, 400 volts between phases—Motive power installations of 1 B H.P. in the aggregate and over.

16. *General Wiring Conditions*—(*a*) *Mains*-The consumer's mains shall in all cases be brought back to the licensee's point of supply and sufficient cable shall be provided for connecting up with the licensee's apparatus.

(*b*) *Switches and Fuses.*—The consumer shall provide linked quick break main switches and a single pole fuse on each pole, which shall be fixed as near as possible to the licensee's meter board.

(*c*)*Balance of Installation.*—If the connected load of any installation exceeds 10 amperes at 230 volts, the installation shall be wired on the group system, separate neutral wires being brought back in each case to the licensee's point of supply. An approved form of linked switch (single pole) with two single pole fuses shall control each main circuit The lamps, fans or any other apparatus of which the installation consists shall be so grouped that under normal working conditions the current will be balanced and no current will be flowing in the neutral wire.

(*d*) *Medium Pressure Supply.*—With medium pressure supply, i. e., 250 volts to 650 volts,

the licensee's meter and service cut-outs shall be enclosed in a strong teakwood box suitably ventilated and provided with a hasp, staple and lock. All wires between which a difference of potential of 250 volts or over exists shall be made inaccessible to unauthorised persons or enclosed in an earthed metallic casing or conduit. A "Caution" Board printed in English and in the Vernacular shall be fixed thereto

(e) *Aerial Mains*—In order to save the expense of a long underground service on private property, a consumer may, with the licensee's approval, erect a piller on that portion of his property which is nearest to the licensee's supply mains into which the service shall be laid and from which the consumer shall run overhead mains to his premises. These overhead mains shall constitute a portion of his installation and shall be laid in compliance with the Indian Electricity Rules, 1937. An efficient choking coil and lightning arrester may be fixed at the commencement of the overhead line at the consumer's cost should he desire the same, as an additional protection for his installation.

(*f*) *Earthing* — Gas pipes shall on no account be used for earthing purposes. All wiring shall be kept as for as possible from gas and water pipes.

(*g*) *Domestic Heating and Cooking.*—A special circuit for heating and cooking shall be run from the licensee's point of supply. Wall plugs used on these circuits shall be of the three pin type, the third pin being an earth connection. Two pin plugs or lightning sockets shall not be allowed.

(*h*) *Plugs* —All plugs shall be switched on the live wire and not on the neutral.

(*i*) *Wiring* —Single leads shall not be allowed to be run separately in iron conduit

(*j*) (*1*) *A. C. Motor Installation.*— Motors shall be provided with control gear so as to prevent satisfactorily the maximum current demand from the consumer's installation exceeding the limits given in the following schedule at any time under all possible conditions. Failure to comply with these regulations will render the consumer liable to disconn-

-ction from the supply on account of interference with the supply to other consumers:—

Nature of supply	Size of installation.	Limit of maximum current demanded
Single Phase....	Up to and including 1 B.H.P.	Six times full load-current
Three Phase....	Above 1 B.H.P. and up to and including 10 B.H.P	Three times full load current.
	Above 10 B.H.P. and up to and including 15 B.H.P.	Twice full load current.
	Above 15 B.H.P.	One and a half time full load current.

~~Mc.H.(i) R 49-2~~

Motor circuits shall be controlled by a triple pole switch protected by a no-volt release and T. P. fuses (or overload releases). It is important that the release should be maintained in thorough working order. Wiring for motors shall be run with all three phase wires bunched in a single metallic conduit,

which shall ~~must~~ be efficiently earthed throughout and connected to the frame of the motor from which two separate earth wires shall be run. The minimum size of the earth wire permitted is No. 10 or 2/14 S. W. G All motors shall comply in every respect with the Indian Electricity Rules, 1937.

Motors ~~above~~ of 1 B H P & above shall be wound for 3 phase, 400 volts between phases.

(*k*) *Power Factor of Apparatus.*— The apparatus shall have a power factor of not less than 80 per cent at normal working loads

17. *Saving of Rights of Licensee and Consumers* — Nothing in these conditions shall abridge or prejudice the rights or remedies of the licensee and the consumer under the licensee, the Indian Electricity Act, 1910, or the Indian Electricity Rules, 1937

ANNEXURE "A"

FORM OF REQUISTION FOR SUPPLY OF ENERGY UNDER CLAUSE VI (5) OF THE SCHEDULE TO THE INDIAN ELECTRICITY ACT, 1910

Note.—Intending consumers are requested to see that this form is fully and clearly filled in and signed.

To,

MANVI BROTHERS BYADGI.

I/We hereby require you, in accordance with clause VI of the Schedule to the Indian Electricity Act, 1910, within one month or within such longer period as the Electric Inspector may allow, from the date of this requisition, to supply energy for the premises owned/occupied by me/us,

and situate within the area of supply specified in the

Byadgi Electric Licence, 1937, for the following:—

Incandescent Lamps.		Punkhas		Plugs, Heaters, etc.		Motors.		Total Demand
No.	Wattage each	No.	Wattage each	No.	Wattage each	No.	B.H.P. each	K.W.

Applicant's Name

Designation

Class of Premises House No

Road Locality

This requisition is for—

(1) A New service.

The landlord has agreed to my taking the supply of energy and his written authority is enclosed herewith.

(2) A Tapping

Note—

1. The applicant is requested to complete the clause referring to this requisition and to strike out the clauses which are in applicable.

2. Under clause VI (1) 1st proviso of the Schedule to the Indian Electricity Act, 1910, the licensee shall not be bound to comply with any such requisition unless and until the person making it—

(*a*) within fourteen days after the service on him by the licensee of a notice in writing in this behalf, tenders to the licensee a written contract in the form approved by the Local Government duly executed and with sufficient security binding himself to take the supply of

energy for not less than two years to such amount as will produce at current rates charged by the licensee, a reasonable return to the licensee; and

(*b*) if required by the licensee so to do, pays to the licensee the cost of so much of any service line as may be laid down or placed for the purposes of the supply upon the property in respect of which the requisition is made, and of so much of any service line as it may be necessary for the said purposes to lay down or place beyond one hundred feet from the licensee's distributing mains, although not on that property.

3. No connection will be given to any consumer whose installation has not been carried out by a licensed electrical contractor and under the direct supervision of a Competency Certificate holder [*vide* Government Notification (Public Works Department) No. 640/27-I, dated 15th November 1934].

4. In lieu of the contract referred to in Note 2 (a) above, the licensee is prepared

to accept a declaration in the following form, subject to deposit of any required securities by the applicant:—

Declaration

I/We hereby declare that I/We desire to have and agree with the licensee to take a supply of energy for the abovementioned purposes for a period of not less than two years from the date of commencement of the supply and to be bound by the provisions of clause VI of the schedule to the Indian Electricity Act, 1910, and by the licensee's charges, rates and conditions of supply as from time to time in force.

One rupee stamp

Applicant's signature.

ANNEXURE " B "

AN AGREEMENT made this day of One thousand nine hundred and thirty between

(hereinafter referred to as the " Licensee ", which expression shall, unless excluded by or repugnant to the context, be deemed to include his successors and permitted assigns) of the one part and (hereinafter referred to as " the consumer ", which expression shall unless excluded by or repugnant to the context include his heirs, executors, administrators and assigns) of the other part.

WHEREAS the licensee has agreed to supply and the consumer has agreed to take energy at the premises mentioned in the schdule hereto (hereimafter referred to as " the said premises "), subject to the terms and conditions hereinafter contained.

Now it is hereby agreed by and between the parties hereto as follows:—

1. The licensee shall from the day of 19 and during the continuance of this agreement, supply the consumer with the energy required by him for the purpose and up to the maximum quantity

specified in the schedule hereto

2. The consumer shall pay to the Licensee on demand the cost of so much of any electric supply line as may be laid for the purpose of the supply upon the said premises, and of so much of any electric supply line as it may be necessary to lay for the said purposes in excess of 100 feet from the Licensee's distributing main, although not on the said permises.

3 The supply shall be registered by a meter or meters in or upon the said premises which the licensee shall provide and keep in order and replace whenever necessary on payment of a monthly rental of annas eight or rupee one per meter according to the nature of the meter. The consumer shall be at liberty at any time to purchase another meter or meters and from and after the purchase thereof the consumer shall be responsible for keeping the same in proper order.

4 The consumer shall pay to the licensee for the energy so supplied and registered as aforesaid at the rates from time to time in force and paid by similar consumers; provided nevertheless that if at the end of twelve calendar months

calculated from the first day of the month following that in which the supply was first commenced and at the end of each subsequent period of twelve calendar months during which this Agreement is in force, the registered consumption of energy shall fall short of the value of Rs. being the equivalent of such guaranteed minimum consumption as is specified in the Schedule hereto, the consumer shall pay to the Licensee the differenee between the registered consumption and the guaranteed minimum consumption at the rate per Board of Trade unit applicable thereto; Provided further that in the event of a minimum consumption not being guaranteed the consumer shall pay to the Licensee for each calendar month during which this Agreement is in force a sum which shall not be less than the Licensee's prescribed minimum monthly charge.

5. Readings of the meter or meters shall be taken by the Licensee once in each month or at such other intervals or times as the Licesee shall deem expedient and the Licensees's meter readers shall have access to the consumer's premises at all reasonable times for the purpose of taking such readings. Payment for

energy supplied shall be made by the consumer according to the reading of each meter forthwith upon presentation of a bill therefor.

6. Should the consumer dispute the accuracy of any meter not being his own property, the consumer may upon giving notice and paying the prescribed fee, have the meter officially tested by the licensee or the Electric Inspector, Bombay, in accordance with section 26 of the Indian Electricity Act, 1910. In the event of the meter being tested by the licensee and found to be beyond the limits of accuracy as precribed, the testing fee will be returned and the amount adjusted in accordance with the result of the test taken in respect of the meter reading of the three months prior to the month in which the dispute has arisen due regads being paid to conditions of accupancy during the month under dispute and during the previous three months. In the event of the test being undertaken by the electric Inspector, Bombay, and the meter being found to be incorrect, the period during which the meter shall be deemed to have been incorrect, and the amount of energy supplied to the consumer during this period shall be decided by the Electric Inspector, Bombay.

7. The consumer shall, on receipt of a requisition from the Licensee in this behalf deposit with him the sum of Rs. as security for the purpose next hereinafter mentioned, and shall on a like requisition from time to time renew or replenish such security in the event of the same becoming exhausted or insufficient. The Licensee shall be at liberty, at any time and from time to time to appropriate and apply any security so deposited as aforesaid in or towards the payment or satisfaction of all or any moneys which shall become due or owing by the consumer to the Licensee in respect of the supply of energy or otherwise under this Agreement but the provisions in this clause contained shall not prejudice any other remedy to which the licensee may be entitled for the recovery of any such moneys. Interest on such deposets shall be paid to the consumer in accordance with the terms laid down in the Licensee's conditions for the supply of energy

8. This agreement shall be in force for a period of not less than two years in the first instance from the date of commencement of the supply specified in clause 1 and thereafter

shall continue from year to year until the agreement is determined as hereinafter provided

9. The consumer shall not be at liberty save with the consent of the Licensee to determine this Agreement before the expiration of two years from the date of commencement of the supply of energy hereunder The consumer may determine this Agreement at any time after the said period on giving to the Licensee not less than one calendar month's previous notice in writing in that behalf and upon the expiration of the period of such notice this Agreement shall cease and determine without prejudice to any right which may then have accrued to the Licensee hereunder; Provided always that the consumer may at any time with the previ-ous consent of the Licensee transfer this Ag-reement to any other person and upon subscription of such transfer this Agreement shall be binidng on the transferee and the Licensee and take effect in all respects as if the transferee had originally been a party hereto in place of the consumer who shall thenceforth be discharged from all liability under or in respect hereof.

10. This Agreement shall be read and construed as subject in all respects to the provi-

isions of the BYADGI Electric License, 1937 and to the provisions of the Indian Electricity Act, 1910, and the rules for the time being in force thereunder as far as the same may respectively be applicable.

The supply of energy under this Agreement is also subject to the following among other provisions of law, namely:—

(i) If the consumer fails within seven days after the date of the service thereof upon him to comply with the terms of any notice in writing by the Licensee requiring him to give security which may have been given for these purposes but which may have become exhausted or insufficient, the licensee may discontinue the supply so long such failure continues.

(ii) If the consumer adopts any form of lamp or burner or uses the energy supplied or deals with it in any manner so as unduly or improperly to interfere with the efficient supply of energy to any other person by the Licensee, or fails to keep in proper order any meter belonging to him by which the supply is registered, the Licensee may discontinue the supply so

long as such lamp or burner is so adopted or the energy is so used or dealt with or the meter is not kept in proper order, as the case may be.

(iii) The Licensee shall not be bound to give or continue the supply if an Electric Inspector or other competent person appointed by the Local Government is satisfied that the electric lines, fittings, works or any other apparatus within the said premises are not in good order and condition and are likely to affect injuriously the use of energy by the Licensee or by other persons. Nor will the Licensee be responsible for any interruption or diminution in the supply of energy due to occurrences, beyond his control.

(iv) If the consumer makes any alterations or additions to any electric wires, fittings, works or apparatus belonging to him within the said premises, all such alterations and additions shall be notified to the Licensee by the consumer before being connected to the source of supply with a view to their being examined and tested.

THE SCHEDULE REFERRED TO ABOVE.

1. Description of the premises.

2. Purposes for which supply is to be given.

3 Maximum quantity of energy required by the consumer.

4. Value of guaranteed consumption for each period of twelve calendar months. commencing from the day of 19

IN WITNESS whereof for and on behalf of the Licensee has/have set his/their hand/hands and the seal of the Licensee and the Consumer has set his hand hereunto the day and year first above written.

SIGNED, sealed and delivered by

for and on behalf of the Licensee.

SIGNED and delivered by the Consumer.

ANNEXURE " C ".

Form of Requisition under clause V (4) of the Schedule to the Indian Electricity Act, 1910.

(In the case of six or more owners or occupiers)

To,

We, the undersigned, being owners or occupiers of the premises situated in or upon

Street in the town of

within the "Area of Supply" specified in the

do hereby require you in pursuance of Clause V of the Schedule to the Indian Eletricity Act, 1910, to provide within six months from the date of this requisition, distributing mains through the said streets.

Dated at

the day of 19

PART II.

SERVICE AND MISCELLANEOUS CHARGES.

Charges for service line.—One hundred fe[illegible] of service line from the distributing main, but not on the property for which a requisition for the supply of energy is received, shall be laid free of charge. The charges for the rest of the service line shall be recovered at the actual cost *plus* fifteen per centum to cover overhead charges.

MISCELLANEOUS CHARGES.

	Rs.	a.	p.
1. Connection fee—			
(a) Connection fee for every new installation to the supply mains, including the fixing of meters	6	0	0
(b) If two or more new connections are simultaneously made from the same service, the fee for each additional connection after the first shall be	3	0	0
2. Reconnection fee for an installation which is disconnected on account of—			

Vacation of premises or non-payment of accounts or infringement of the conditions of supply.... 2 0 0

Note—If, owing to the staff of the Licensee being unable to obtain access to the meter, the disconnection has to be made from the mains, either underground or overhead, the consumer shall have to pay all the costs incidental to such disconnection and reconnection.

	Rs. a. p.
3. Meters—	
(a) Hire of a single phase A. C. meter, per mensem,....per meter	0-8-0
Hire of a polyphase A. C. meter per mensem .... per meter	1 0 0
(b) Changing meter for one of a different size when necessitated by a change in the consumer's demand	2 0 0
(c) Changing the position of the meter board only and when no alteration in service is required, the necessary alteration in consumer's wiring being carried out by a licensed electrical contractor....	3 0 0

(*d*) Charge for attendance of a fuseman. 1 0 0

(*e*) Charge for the supply and fixing of an additional meter board 3 0 0

(f) Charges for attendance of fusemen at consumer's premises during any function per night 3 0 0

4. *Testing*—

(*a*) *Installations* — The test and inspecton prior to connection of a new installation shall be carried out free of charge, but should any further test and/or inspection be found necessary owing to any fault in the installation or to non-compliance with the conditions of supply the charge for each additional test shall be 5 0 0

(*b*) *Testing of meters* — under section 26 of the I. E. Act 1910.—In the case of a disputed meter no charge shall be made for testing it, should the

	Rs.	a.	p.
meter prove to be out side the limits of error allowed under rule 32 of the I.E. rules 1937 otherwise the charge testing it shall be .... p. meter:	3	0	0
(c) The Licensee shall undertake to test and calibrate meters, which are the property of the consumer on payment of a charge of .... p. meter	3	0	0

Note.—The Licensee shall not accept any responsibility whatsoever for the satisfactory and correct running off the consumer's meter after the owner has taken delivery thereof subsequent to the test.

5. *Failure of supply.*—For restoring connection in cases in which the failure of supply is due to any cause other than a fault in the Licensee's apparatus 1 0 0

6. *Security deposits against payment of monthly bills.*—When required by the Licensee to so, the consumer shall deposit security as under—

(1) for lights and fains per 0·5 K.W. applied for	5	0	0
(2) for motive power per B.H.P. installed	10	0	0

Note:— The licensee is by no means bound to charge the maximum

N.B.:-Bills to be paid in Gadag only and it is understood that orders and payments asked or accepted by any of our Canvassers are understood to be, on behalf of our Gadag office. All disputes to be settled in Gadag Court only.
